

PROTECTION CONCEPT COVID-19 TC OBERÄGERI

Version 9.0 - Valid from 24 April 2021

In case of translation errors the German Version of the Protection Concept applies.

1. Measures clubs

1.1. Covid-19-Representative

Measures

The COVID-19 representative for the TC Oberägeri is:

Iwan Rogenmoser
Riedmattli 5
6315 Oberägeri
rogenmoser@mail.com
079 401 55 81

1.2. Hygiene regulations

Measures

People in the club regularly wash/disinfect their hands.

The traditional “shake hands” should still be avoided.

1.3. Social distancing

Measures

The distance of 1.5 meters must be adhered to.

Players' benches or chairs must be placed at a minimum distance of 1.5 meters, provided contact tracing is not possible.

The minimum distance of 1.5 meters must also be ensured in the cloakrooms and showers.

1.4. Use of the facility

Measures
The entire infrastructure is open.
In the clubhouse there is an upper limit of 15 people and a mask requirement for adults.
The clubhouse must be ventilated regularly when it is in use.

1.5. Logging & tracking (contact tracing)

Measures
If it cannot be ruled out that close contacts will arise, the contact details of all persons present on the facility must be collected and, if requested by the health authorities, be able to be shown for 14 days. In order to make contact tracing easier, attendance lists are always kept. Contact persons for the infected person can be quarantined by the cantonal health authorities.
The following measures ensure the tracking of any infection chains (contact tracing):
- Court reservation/logging of players through the online reservation system.
- Interclub teams and registered play groups (women, senior women and Rogers) keep attendance lists and provide the data on request from the COVID-19 representative without delay.
- Junior trainers log participants in the training courses and make the data available on demand from the COVID-19 representative without delay.
- Until further notice, the use of the courts is only permitted for club members or guests of club members (no tourists).

1.6. Particularly vulnerable people and people with symptoms of illness

Measures
People with symptoms of illness are not allowed to take part in games or training. They go into isolation, call their family doctor and follow their instructions. Any play partners or training groups are to be informed immediately about the symptoms of the disease.

1.7. Duty to provide information

Measures
The protective measures of TC Oberägeri were communicated to the following target groups on 23 April 2021:
- The BAG poster "This is how we protect ourselves" is hung in the clubhouse.
- The protection concept COVID-19 was hung up in the TC Oberägeri and sent to all members by e-mail and published on the homepage.

2. Protective measures for events and competitions

2.1 Responsible person

Measures

A responsible person must be designated for events who is responsible for compliance with the requirements. This is usually the captain of the IC teams or the trainer for junior teams.

2.2 Number of participants

Measures

A maximum of 4 people are allowed to play at the same time per court. These restrictions do not apply to people born in 2001 and younger.

People with symptoms are not allowed to participate in events or competitions. The organizer can exclude people with symptoms from the event.

2.3 Contact Tracing

Measures

At the request of the cantonal health authority, the organizing organization or person must be able to identify all personal data for 14 days after the event.

Protocols and attendance lists may only be used for any contact tracing.

2.4 Hygiene measures

Measures

The hygiene measures of the BAG must be implemented, especially regular hand washing. The organizer provides the appropriate infrastructure.

2.5 Social Distancing / Distance Rules and Spectators

Measures

Spectators are prohibited in amateur sports. The spectator area is based on the TCO facilities. Other participants, staff, team members, supervisors, etc. are not considered to be spectators.

Body contact should be avoided and the distance rule of 1.5 meters must be observed. Actively remind those involved to comply with the rules of the BAG.

3. Measures tennis players

3.1 Compliance with protective measures

Acceptance and compliance with all protective measures prescribed by the club by the tennis players.

Measures
With the booked and confirmed court reservation, the player accepts the defined protective measures.
The parents are responsible for ensuring that children and adolescents also fully comply with the requirements. This is ensured with the following measures:
- Communication via junior department (tennis school)

Thank you for your support.

Best regards and lots of fun on the courts

Board TCO the President
Iwan Rogenmoser
